EDUCATION

ReBootKamp

Anera PLUS RBK

📅 2020 - 2021

- The ReBootKamp program is a career accelerator, producing high quality software engineers in 16 weeks using a curriculum developed in Silicon Valley. One of the Arab world's first coding boot camps. Providing market-ready, adaptable coding skills and other essential "soft" skills demanded by the industry. Technical skills include Javascript, MongoDB, Express, React, NodeJS, & HTML/CSS. Non-technical skills include essential communication, collaboration, problem solving and critical thinking.

BSc Civil Engineering

An-Najah National University

📅 2012 - 2016 📍 Nablus, Palestine

GPA

3.21 / 4

PROJECTS

SkyScanner

🔗 <https://falcons-scanner.herokuapp.com/>

A website developed using MERN stack, that fetches flights data from Skyscanner API based on search query, a logged in user can add tickets to his cart and checkout using Stripe API, the user is authenticated using JWT and bcrypt for password hashing in DB.

Personal Expenses App

A mobile app developed using Flutter & Dart, for both Android and iOS, the app lets you add all the purchases or payments you have done, to give you a nice representation of your last week expenses using an interactive chart.

Face Detection

A website developed using React where you can create an account protected by bcrypt password-hashing authentication function in a PostgreSQL database using Node.js and Express. Once logged in, Clarifai face detection API will detect any face in a given image and a box will be drawn around the face.
